

REACH-regulation (EG) No 1907/2006

Dear Sir or Madam,

Thank you for your enquiry regarding the **REACH-regulation (EG) No 1907/2006** of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals. We will gladly take a position on the subject.

Mädler GmbH is one of the leading suppliers of drive components, operating parts, standard parts, shock absorbers, linear technology, pneumatics, gearboxes, gear motors, pull-out rails and shaft-hub connections. According to the REACH-regulation, our products are classified as manufactured goods. They are therefore not subject to any registration-, assessment- and licensing requirements.

According to Art. 33 of the REACH-regulation, we have an obligation to inform our customers if a product supplied by us contains a substance of very high concern (SVHC substance) in a mass concentration above 0.1 percent.

The list of SVHC substances is published on the website of the European Chemicals Agency (ECHA): <https://echa.europa.eu/en/candidate-list-table>.

Attached you will find our list, which of our MÄDLER® catalog items are currently subject to notification. Please note that this list is constantly updated. As soon as we find out that our products have to be notified in accordance with Art. 33 of the REACH Regulation, you can be confident that we will forward this information to you without being asked and without delay on our Homepage: <https://www.maedler.de/Static/DownloadCenter>

In addition we remain in close contact with our suppliers, with the aim that all components which are delivered to Mädler GmbH comply with the requirements of the REACH-regulation.

For products with special surface treatment or corrosion protection requirements, we manufacture in reference to your specifications and comply with them accordingly. Customer-specific production parts are manufactured according to customer drawings, specifying material and treatment. The checking of the compatibility of these parts, with the above-mentioned standard, is therefore subject to the customer.

If you have further questions about the implementation of the REACH-regulation in our company, we are always at your disposal.

This document was issued electronically and is therefore valid without signature.

Kind regards

Your MÄDLER GmbH

Appendix

Negative list

REACH Negative list from 28.06.2023. At the present, the following products have a substance of very high concern (SVHC substance) in a mass concentration above 0.1 percent:
